

1-8DPF40 SHOT BLASTER

A WALK-BEHIND SHOT BLASTER FOR SURFACE PREPARATION

The Blastrac 1-8DPF40 is a walk-behind shot blasting machine perfect for small to medium-sized jobs. The machine is equipped with a drive motor and the maneuverability makes the 1-8DPF40 user friendly to operate and transport. It blasts moving forward and is capable of reaching corners that other self propelled units can't reach.

The 1-8DPF40 is dust free when connected to the appropriate Blastrac dust collection system. Blastrac has designed a full range of dust collectors, consumables and optional items which give the opportunity to process any floor and specific application.

CLOSED CIRCUIT

The 1-8DPF40 has to be connected to a Blastrac industrial dust collector. This means that you are able to work dust free, creating a safe working environment.

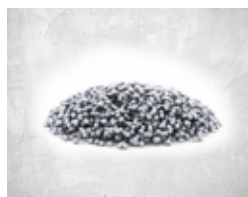

DRIVE MOTOR

The machine is equipped with a drive motor for ease of use.

PERFECT FOR SURFACE PREPARATION

The Blastrac 1-8DPF40 shot blaster is perfect to clean and prepare surfaces, such as steel, concrete and asphalt before the application of a new coating.

STEEL ABRASIVES

Depending on the material you want to remove and the result you want to achieve, you can choose different types of abrasives.

SMALL & COMPACT

The 1-8DPF40 is small and compact, but still very efficient. It can work on narrow areas and is very easy to manoeuvre.

FORWARD MOVING SHOT BLASTER

Shot is blasted forwards by pushing the handle. It will launch both the drive motor & blast motor.
